

Full Stack Lead Engineer

Why we love working at Helium:

Our motto is be honest, take pride, and do amazing work. We put our team first and deliver results to our customers.

Helium was founded by friends. We believe in doing the right thing, treating people well, and building a company where we would want to work. We hire, promote, and reward based on performance. We don't play politics or favorites. We work hard and have fun along the way.

We take a lot of pride in having worked with clients in a wide range of industries, including Healthcare, Retail, Field Service Management, and Sports Entertainment.

About the gig:

We are looking for a process-oriented senior engineer that is ready to lead a team by example. We are seeking a leader that can walk-the-walk and knows when and where to use a variety of solutions to solve hard problems. You will be expected to deliver great results and help mentor your team.

The experience we expect from a Lead Engineer:

- Ruby / Rails (6+ years)
- React Native (3+ years)
- Unit testing & implementation
- Post production application support
- Structured code reviews
- Project and task time estimation
- Agile project management experience
- PHP experience (not required, but a plus)

A few of the perks:

- You will be eligible for our 100% covered health insurance (up to \$500 per month).
- You will have the opportunity to build and shape your own team with a leadership team who truly cares.
- You will be joining a company on the verge of rapid growth.
- You will actually have decision making power.
- We have no vacation policy. Take the time you need.
- You will receive a free gym membership.
- Enjoy free breakfast, snacks, and amazing coffee every day.
- We have a modern, open office with skyline views.

How to Apply:

Email your resume to careers@heliumservices.com or call (678) 882-5333.
